Advancing Web & App Dev Using Open Source & AI

Build smart . Scale fast . Spend less .

Speaker
Abhishek Mankuskar
Software Engineer | Frontend Lead @ Stealth Startup | Creator & Lead, SWOC | Open Source Strategist
Speaker, Google DevFests & Cloud

Date : 7th March , 2026
Time : 11AM - 1PM
Venue : Remote Center Hall
Fee : ₹25 for Non-Members

Session Highlights:

- From Generational Shifts to Today's AI-Driven Development
- Live Demo: Building an AI Code Reviewer with Open Source tools
- Why Open Source Matters More Than Ever

Faculty Coordinator
Mr. S.T. Patel

Student Coordinators
Chinmay Upase - 8766839808
Vidya Gangji - 8421428811

REGISTER NOW!

Objective

The objective of the session “*Advancing Web & App Development Using Open Source & AI*” was to introduce students to modern development practices powered by open-source technologies and artificial intelligence. The session aimed to help participants understand how developers can leverage AI tools and open-source platforms to build scalable, efficient, and innovative web and application solutions.

Outcomes

After attending this session, participants were able to:

- Understand the role of AI in modern web and app development
- Explore powerful AI development tools such as Gemini CLI and Google ADK
- Learn about open-source frameworks and platforms used in modern development
- Gain insights into integrating AI capabilities into real-world applications
- Understand how open-source ecosystems accelerate innovation and collaboration
- Develop awareness of emerging technologies shaping the future of software development

Detailed Report

Introduction:

Overview of Sessions:

Date: 07/03/2026

Time: 11:00 AM - 1:00 PM

Venue: Conference Hall, near CSE Head of Department cabin

Session Summary:

The expert talk, “**Advancing Web & App Development Using Open Source & AI**,” was an insightful and engaging session led by **Abhishek Mankuskar**, Software Engineer and Frontend Lead at a Stealth Startup, Creator and Lead of SWOC, Open Source Strategist Speaker at Google DevFests and Google Cloud events.

The session highlighted the evolution of software development from static websites to modern cloud-based systems and the current era of **Generative AI and intelligent agents**. Mr. Mankuskar explained how developers can combine **AI-powered tools with open-source technologies** to build faster, smarter, and more efficient applications.

He introduced several modern tools such as **Gemini CLI, Google ADK, LangChain, Docker, FastAPI, and Hugging Face models**, explaining how they help developers integrate AI into their workflows. He also discussed how Gemini CLI and Google ADK can assist developers in tasks like reviewing code, detecting bugs, and building AI-powered applications.

The session also emphasized the importance of open-source collaboration and continuous learning to stay updated with industry trends. The presentation was delivered in an engaging manner, with the speaker incorporating humour and memes in his slides, which made the session lively and enjoyable for participants.

The session concluded with an **interactive Q&A**, where students asked questions about AI tools and open-source development, gaining valuable insights into modern software practices and emerging technologies. The discussion encouraged participants to further explore AI-driven development.

Attendance and Participation:

The session witnessed enthusiastic participation, with **58 students** attending the event. Participants showed keen interest in the discussion and actively engaged during the **Q&A segment**, contributing to an interactive learning environment.

Resource Person:

The session was conducted by:

• **Mr. Abhishek Mankuskar:** A Software Engineer and Frontend Lead at a Stealth Startup, Mr. Abhishek Mankuskar is also the Creator and Lead of SWOC. He is an active **Open Source Strategist** and a speaker at **Google DevFests and Google Cloud events**, known for promoting open-source collaboration and modern development practices. Passionate about technology and community building, he regularly shares insights on web development, cloud technologies, and the integration of AI in modern software development.

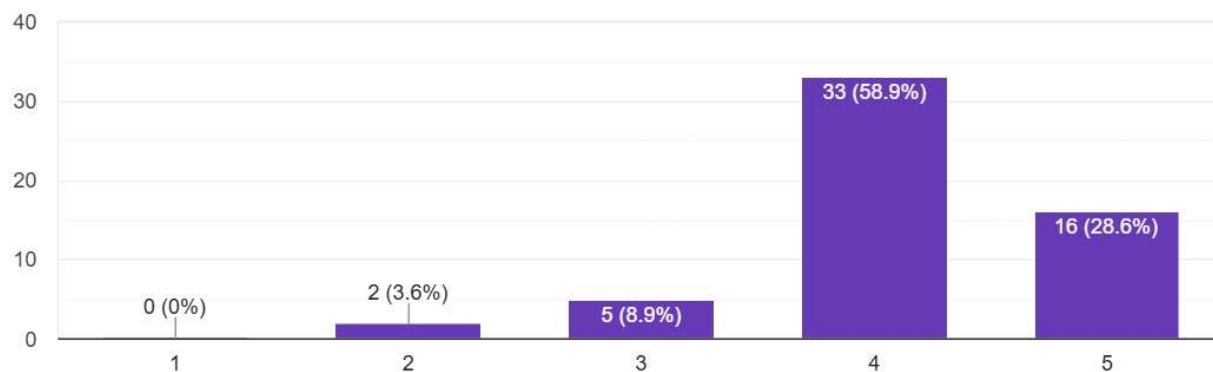

Feedback

Participants were invited to share their feedback on the session's content, delivery, and overall organization. Feedback forms were distributed and collected to evaluate the effectiveness of the session and gather valuable suggestions for future improvements and enhancements.

Overall, how would you rate the Session?

Nice Session Helpful...

The session was helpful and engaging. More practical examples and longer sessions would make it even better.

Overall, it was an amazing session.As a first year student i found it a little less relatable but got to know about the benifits of open ai contribution.

Valuable, interesting lecture.

Excellent session and it's very helpful and get the knowledge of open-source what are and the what that things in open sources.You can conduct more sessions like this 😊 Thanks!!!

Good one

It was Very good...Take the practical experiment

Add more sessions

It's good

Would like hands on session on topic

None

Was a good session

No, Overall session was good

Great session learnt how things works

I want more practical demonstration.

Great speaker , overall the session was amazing

Permission:

Date: 4th March 2026

To,
The Principal,
Walchand Institute of Technology,
Solapur

Subject: Requirement of Conference Hall (Near CSE HOD Cabin) for Advancing Web & App Dev Using Open Source & AI Session on 7th March 2026.

Respected Sir,

I, Mr. Sampriit Patel Assistant professor from Computer Science and Engineering Department requires the Conference Hall (Near CSE HOD Cabin) to conduct the Advancing Web & App Dev Using Open Source & AI Session on 7th March, 2026 from 10:30am to 1:00pm.

This workshop will be conducted by Abhishek Mankuskar.

I request you to grant me permission to use the hall on the above-mentioned date.

Thank You.

Yours faithfully,

Mr. S. T. Patel
