

S. A. P. D. Jain Pathashala's

Walchand Institute of Technology, Solapur

An Autonomous Institute

Department of Computer Science and Engineering

Organized by: Learning Out Loud Coding Club

Name of the Event: "Brainstorming Session -Episode 2"

Date of the Event: 21/02/2026

Poster:

The poster is for a 'Brainstorming Session Episode 02' organized by the Learning Out Loud Coding Club (LOL) at Walchand Institute of Technology, Solapur. It features a blue background with geometric patterns and icons like a lightbulb, an hourglass, and people sitting at a table. The text includes the event title, date (21st Feb 2026), time (11 AM), location (PG Lab), and a special guest, Ekansh Jain, a Senior Software Engineer at Persistent Systems. It also mentions a limited number of participants (20) and a QR code for registration.

BRAINSTORMING SESSION EPISODE 02

SAME SPOT, FRESH THOUGHTS. LET'S BUILD
THE NEXT BIG THING

21st Feb 2026 | Starts At 11AM | PG Lab

Special Presence
Ekansh Jain
Senior Software Engineer at
Persistent Systems

LIMITED TO 20 PARTICIPANTS ONLY
FIRST COME, FIRST SERVE

ONLY FOR MEMBERS!

Limited chairs.
Unlimited shares.
Register now!

Faculty Coordinator
Mr. S.T. Patel

Student Coordinator

Sachin Pangal - 7758920990

❖ Objective

The objective of **Brainstorming Session – Episode 02** was to create an open platform where students could exchange ideas, discuss real-world technical challenges, and develop innovative thinking skills.

The session aimed to encourage collaborative learning, improve communication skills, and help students understand how industry professionals approach modern technology and career challenges.

❖ Outcomes

After attending this brainstorming session, participants were able to:

- Improve their **communication and idea presentation skills**
- Understand the **importance of internships and industry exposure**
- Learn the **importance of Data Structures and Algorithms (DSA)** in programming
- Gain awareness about **industry tools and modern technologies**
- Develop confidence in discussing **technical topics and career opportunities**

❖ Detailed Report

➤ Introduction

The **Brainstorming Session – Episode 02**, organized by the **LOL Coding Club**, was an interactive discussion forum designed to promote innovation, collaboration, and open thinking among students.

The session followed a unique format with **no slides and no formal presentations**, allowing students to freely exchange ideas, ask questions, and explore real-world technology topics.

➤ Overview of Session

Date: 21 February 2026

Time: 11:00 AM – 1:00PM

Venue: PG Lab

Participants: Limited to 20 students (First-Come, First-Served)

The session featured the **special presence of Mr. Ekansh Jain, Senior Software Engineer at Persistent Systems**, who shared valuable industry insights and guided students during the discussion.

➤ Session Summary

The session included discussions on **career preparation, internships, industry expectations, and emerging technologies**.

Mr. Ekansh Jain explained the **importance of internships** in gaining practical experience and building strong technical profiles. Students learned how internships help apply theoretical knowledge to real-world industry projects.

The discussion also highlighted how **Artificial Intelligence is influencing layoffs in the tech industry** and how students can stay ahead by continuously improving their technical skills.

Participants also explored important **industry tools and technologies** such as:

- Jira
- Jenkins
- GitHub
- Microsoft Azure

Another key topic was the **importance of Data Structures and Algorithms (DSA)**. Mr. Jain explained that strong DSA knowledge is essential for **technical interviews, efficient coding, and problem-solving in software development**.

The session was highly interactive, with students asking questions related to **internships, learning programming, project building, and preparing for software development careers**.

➤ Attendance and Participation

The session was limited to **20 students**, ensuring meaningful interaction and active participation.

Students actively contributed to discussions and shared their perspectives, creating a collaborative and engaging learning environment.

➤ Resource person

The session was conducted with the **special presence of Mr. Ekansh Jain**, Senior Software Engineer at **Persistent Systems**. He is a skilled software professional with strong experience in modern software development, industry tools, and emerging technologies.

During the session, he shared valuable insights about **career development, internships, and industry expectations for computer science students**. He also discussed the importance of **Data Structures and Algorithms (DSA)**, **practical project experience**, and **continuous learning** in building a successful career in the technology industry.

Mr. Ekansh Jain also highlighted how modern technologies such as **Artificial Intelligence, cloud platforms like Microsoft Azure, and industry tools such as GitHub, Jira, and Jenkins** are widely used in professional software development environments. His guidance helped students gain a better understanding of **how industry professionals approach problem-solving and technology trends**.

➤ Key Takeaways

- Internships are important for gaining **real industry exposure**
- Continuous learning is necessary to stay relevant in the **AI-driven tech industry**
- Knowledge of **DSA is essential for software development interviews**
- Industry tools like **GitHub, Jira, Jenkins, and Azure** are widely used in professional environments
- Innovative technologies like **Three.js enable modern interactive web development**

❖ Conclusion

The **Brainstorming Session – Episode 02** successfully created an environment where students could freely share ideas, discuss industry trends, and learn from real-world experiences.

The session encouraged critical thinking, collaboration, and curiosity while providing valuable insights into **modern technologies, internships, and career preparation**.

❖ Feedback

Students shared positive feedback about the session and appreciated the **interactive discussion format**. Participants found the insights on **internships, DSA, AI trends, and industry tools** very helpful for their career preparation. The session was considered **informative, engaging, and beneficial** for understanding real-world technology and industry expectations.

Any final thoughts, suggestions, or feedback?
